

REMARKS

The specification has been amended to provide a written Sequence Listing in compliance with 37 CFR 1.821(c). The new written Sequence Listing has been generated by PatentIn version 3.2 and presents no substantive new matter. It differs from the Sequence Listing filed with the application by: (i) providing priority application information, (ii) providing a bibliographic reference to one of the sequences, and (iii) replacing the one-letter amino acid abbreviations with standard three-letter abbreviations. A copy of the new Sequence Listing in computer-readable form is submitted in compliance with 37 CFR 1.821(e).

Respectfully submitted,

  
James H. Meadows, Ph.D.
